HATTER
STETSON UNIVERSITY
DELAND, FLORIDA
VOLUME 45

Stetson is a dichotomy in dreams

*She is the student . . .
“involved” or
performing a four-
year ballet of sterile
steps*

Stetson stands ever choosing before two doors opening to seemingly incompatible goals: tradition, with exposure to some new world, . . . excellence, but financial security conventional religious orientations, yet sophisticated educational philosophies Who hears, comes, sees, stays, moves, loves and leaves? We do the Stetson community We who first gathered here randomly . . . we who are here for a purpose -- immediate or hazy-far . . . little or large in the single breath between rat caps and mortarboards . . . there are those who don't reach out . . . but most of us look, sometimes seeking, sometimes finding, and sometimes yielding and somehow in the high bounces along an uneven road a vision comes

*This vision comes when the individual begins to juggle the pieces of his chaotic world he may attempt to put the pieces aside respite may seem to be in the dots between two thoughts that are a Hat Rack cup of coffee . . . dry words in old books under the arm getting unavoidably wet in the shimmering spray of Holler Fountain...
... the jingle that brings to mind your post office box combination wondering if the number plate on your chapel seat is squarely between your shoulder blades so you aren't counted absent No-Doz mixed with all-nighters and coke breaks sunset behind Hulley Tower's din - whisper spire*

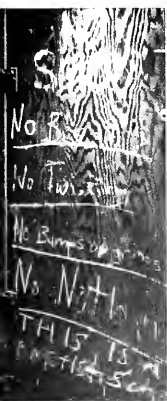

*The young girl incognito in a
vocation that follows the rules with
effortless energy she hints
at sophistication . . . wind free and
warmed over with a smile . . . she's
intellectual, "gung-ho", party . . .
. . a galaxy of Villagers, cut-offs,
and fraternity pins clothing a heart*

*... too alive for silence ... too dear to be
wasted ... too meaningful to go unshared ...*

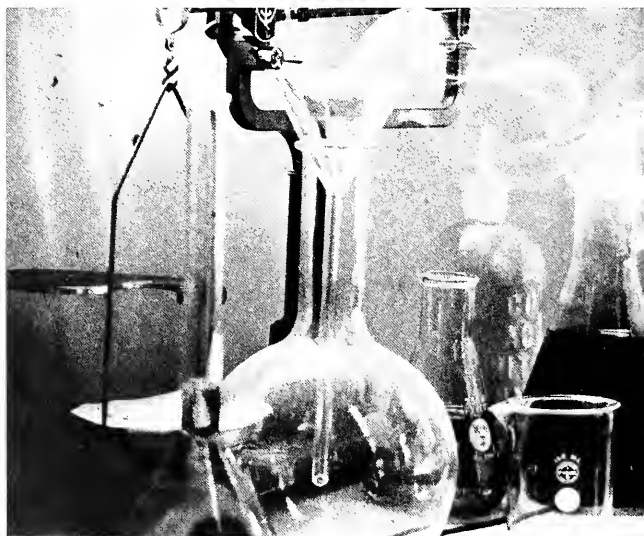

*Beyond the ken of only written word and tabled
taboos new heights and depths discovered in
impulse and passion commitment and con-
cern reframing a vortex of moods and
experiences faint hint of the boy
the innuendo of a man*

*Eight decades of becoming in
a landscape of subtle steeples
tease and toss us in a house
with many rooms to seek
a name for flowers and for
stars a string for each
balloon a handle to a
hope this chafing-dish
for dreams this Stetson*

*How to become? the subtlety of the
quest is not surely grasped but the
shy-steady reach for it this is
Stetson. . Youth not wasted on the young.*

ALUMNI HOUSE

ALUMNI, DEVELOPMENT,
PUBLIC RELATIONS
OFFICES

Can't you see him now welcoming visiting officials to the University of Georgia's President's box during the Homecoming festivities; or getting out a hurried edition of the college newspaper; or trying to find time to edit the university annual while holding membership in ODK, Blue Key, Sphinx and the debating society? Sounds like a rough schedule for any university student doesn't it? But move on a bit to the years he spent as a teacher, free lance writer, public relations official for a large industrial firm, member of community and civic groups, and active member and teacher in his church.

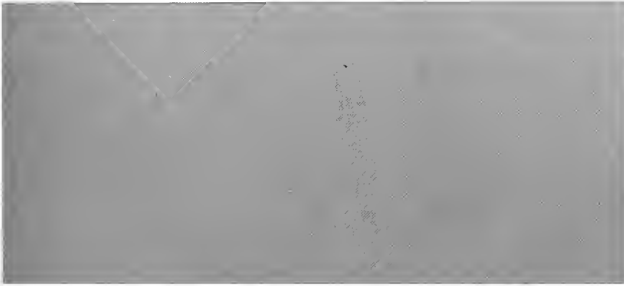

And now he is a part of our community. Maybe you have met him in his office. If so, you have found a cordial manner that is the pure personification of Southern Hospitality. He's a man with a tight schedule that has endless "urgent" cases squeezed into every margin. Georgia bred and Tennessee tempered, he combines the quickness of a highly efficient corporation executive with the casual geniality of a next-door neighbor.

Or possibly you have encountered this Public Relations courser on the campus—between meetings and appointments! If so, you have found a new friend almost automatically.

And he's decided he likes Florida: "I'm gonna' get to that beach before June if it kills me!"

Bermudas are on the agenda when this busy PR man has a few minutes at home. A family man with two children, he has found great satisfaction in his endeavors at Stetson. Professionally, he has combined a genuine concern for every facet of campus life with a deep affinity to Stetson as a spiritual institution.

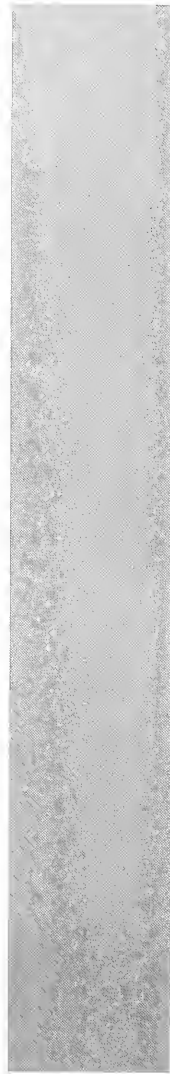

If you check the records you will find that he has contributed a great deal to the university in his one year. Because of his desire for improvement, because of his encouraging vitality, because we admire his sincerity, we inscribe the 1965 Stetson Hatter to MR. FLUKER GORDON STEWART.

Features

REGISTRATION . . . an hour in line and your courses are closed no thank you, I'm not on a meal ticket (high protein-low calorie diet) . . . finally the checkers . . . how does Miss Rowe manage to keep smiling? . . .

IT'S GREEN FEATHER CARNIVAL TIME

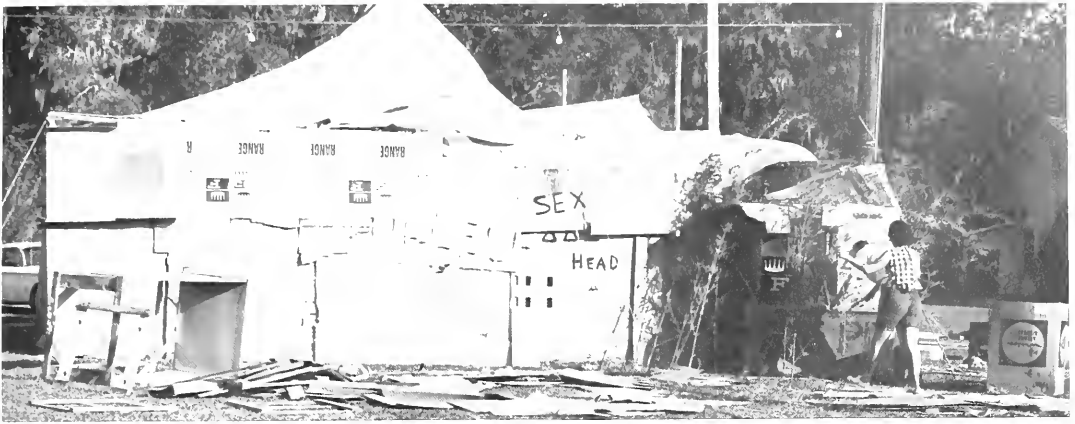

Concerted efforts . . . goal \$3333.33 . . . looks like rain . . . thought these boys said they would do the dirty work . . . blistered hands . . . not enough lumber . . .

Nervous beauties wait inside ... Toni and Linda are runners-up ... the Queen Anne's Salute ... screams of joy from the Alpha Chis ... Miss Ruth Colvard is MISS HATTER 1965! ... Spotlights die ... empty popcorn bags ... crumpled ticket stubs and a now peaceful coffee house ... the festivities have ended ... Stetson shared and we've decided it was worth every minute ...

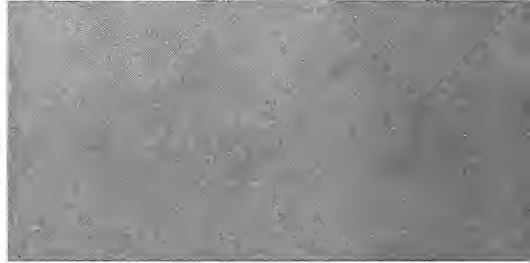

Exemplary Stetson beauties are, (l. to r.) Toni Carameros, second runner-up; Ruth Colvard, Miss Hatter; and Linda Clenney, first runner-up.

Chosen to reign over the festivities of the 1964 Greek Week are Alpha Xi Delta's Linda Guenther and Pi Kappa Phi's Ken Kincaid.

Flickering torches and over-worked Greek diaphragms began a week with the Pi Phis and the Pi Kappas taking the sing Tri-Delta and the Sig Eps came out on top of the olympic heap screaming females, skinned knees bets on which chariot would collapse first and Linda and Ken reigned over the whole thing

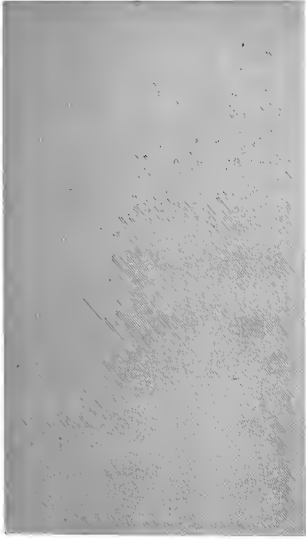

Candidates for Greek God and Goddess are. L. to R.: Vining Bigelo, Jeanne Mazur, Larry Pierce, Judy Swanson, Stan Wallace, Jennie Dekle, Ken Kincaid, Kim Ballard, Tom Bledsoe, Linda Guenther, Lane Burnett, Stevie Hoven.

The dark night . . . sirens . . . silent faces . . . appearing . . . disappearing amid whirling red lights . . . loud radios, urgent, commanding . . . students standing tearful . . . friends, classmates, brothers . . . concern for things in the house . . .

The Dean, the President . . . everyone watching in disbelief as forty-two years of traditions and memories join the upper black velvet of the night above the crackling, charred remains.

. . . and on the next morning the Sigma Nus started again . . .

*Everything spic'n span for
the alums loads of
handshakes and hellos
a taste of the modern in a
hootenanny initiates the
three day festivities
our first bonfire the
Zeta Tau Alphas and the
Pi Kappa Phis took top
honors with their gay and
dazzling lawn decoration
. and Francene and
Bruce reigned over an-
other successful and
eventful Homecoming
for the Hatters.*

No convertible without the top down ... no co-ed without her shades . . . icy mineral water ... games to separate the men from the boys ... and the Hatters hit the Springs en masse for a rollicking day of LEGAL ACADEMIC ABANDON ... a parade of flustered young men ... Toni and Ruth tie as runners-up ... Ron is hailed as the best all-around Stetson man ... and with charming loss of poise Gwen is crowned Miss Stetson 1965 ...

Runners-up Toni Carameros and Ruth Colvard pose with Mr. and Miss Stetson, Gwen Knight and Ron Peacock, candidates of Pi Kappa Phi.

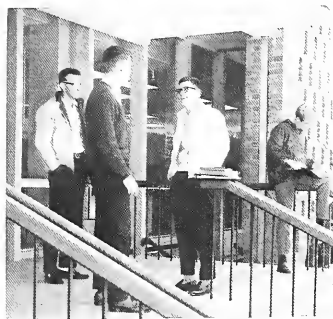

Slowly a new building appeared . . . a building in which the academic battle headquarters are centered. From outward appearances it doesn't look to be strong or fort-like but within its glass walls the students and faculty face the problems of the academic community . . . and here conquer them.

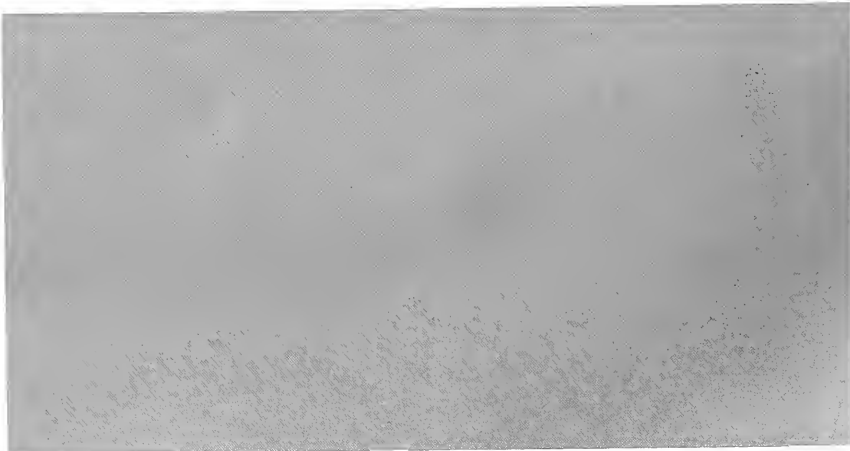

The DuPont-Ball Library is the brain center of Stetson . . . with its carpeted floors . . . its contemporary look . . . and its pervading stillness. The new library is a brick-and-glass home for the lives of men . . . the lives of men with books.

Bright day . . . picnic lunch in the Forest of Arden . . . a mere 150,000 books to move President Edmunds checked on us periodically. Endless trips back and forth . . . armloads of books...cards to be punched. Books off shelves a short walk . . . up the steps . . . books on shelves. Dusty books in a clean, new library . . . we remember the old one . . . closed

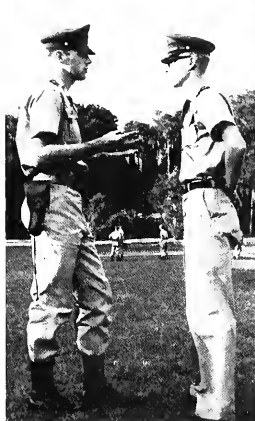

stacks...columns...long tables and many hours spent there with the books.

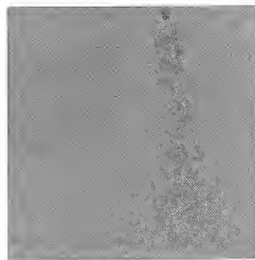

If September is a Monday morning yawn, can June be anything but a Sunday evening quiver . . . and the year only one week of gliding between falling leaves of education in a last attempt to do more than fill up so many individual think-tanks with predigested

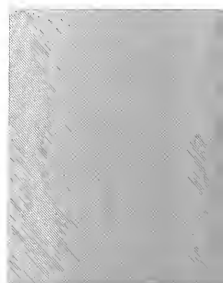

wisdoms? For the outwardly somber face of the senior, topped in tassel eighty threads per tassel, he has counted them below the stream of podium encouragement the journey from yawn to quiver has been laced with the bright-eyed expectation of a Monday morning away from the other mother.

*So many lips in motion . . .
 . . . without sound . . .
 speculating so many
 tomorrows planned
 but today the week is only
 yesterdays in retrospect
 the blue vaulted
 today of carefully couched
 clauses . . . draped in the
 flashing eyes and brilliant
 costume . . . eighty strands
 of tassel for the mind's
 eye full of weeks
 forever irretrievable . . .*

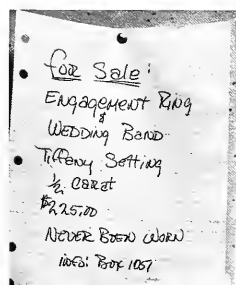

*A rogue's gallery of
moods mirror the year's
events*

*.... a melody of noses
 lined up for data process-
 ing counterpoint
 eyebrows following lively
 guitar strings of a fall
 concert lips
 watching Prof's fingertips
 in the once only sound of
 Noel ... a mouth of open
 awe as the last flickers
 of the Sigma Nu house
 met the sky the
 souls of hands jabbed
 into jaw bones*

*and thin eyes reworking the week's progress during
 exams a tousled shock of hair bleached in the
 sipping ocean tides of one last Weekend a year
 like any other but as unique as the experiences of
 the people who lived it at Stetson in 1965*

A concertmaster mourning solo A . . . timpini tuning the moment before . . . so many thrilling touches against a cello bridge . . . the tips of fingers, executing the swish-whisper of passing pages as notes dance across the score into acute vibrations . . . the valves and reeds as tools in magic springing under the arc and sway of a baton . . . from tiered seats the enchantment rises: now from harp and pianissimo and sforzando . . . empty breathes . . . petal-delicate power and heart-felt applause What defense has man to the Sirens of the symphony, or the symphony of a seraph's voice?

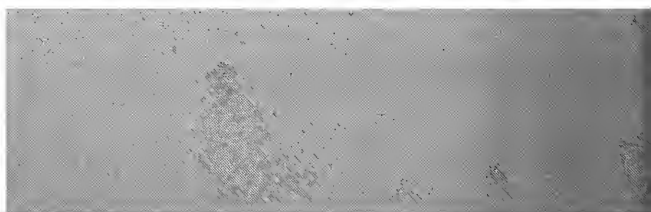

ORCHESTRIT

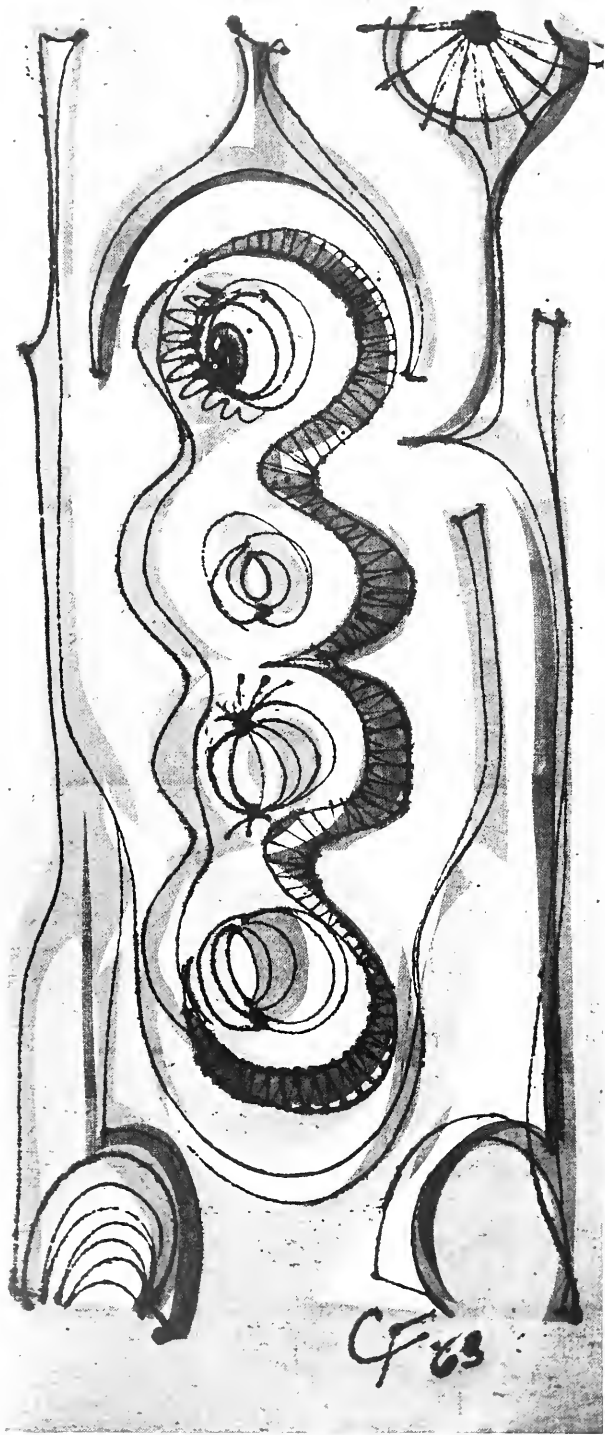

*I think continually of those who were truly
great
Whose lovely ambition was that their lips,
still touched with fire
Should tell of the spirit from head to

Stephen Spender*

The influence of men from other communities . . . aesthetic . . . intellectual . . . beat . . . we identified with, or at least responded to, Dr. Edmund Burke's explanation of the eclectic man a recital on the Beckerath by the master, E. Power Biggs, demonstrated amazing versatility and style

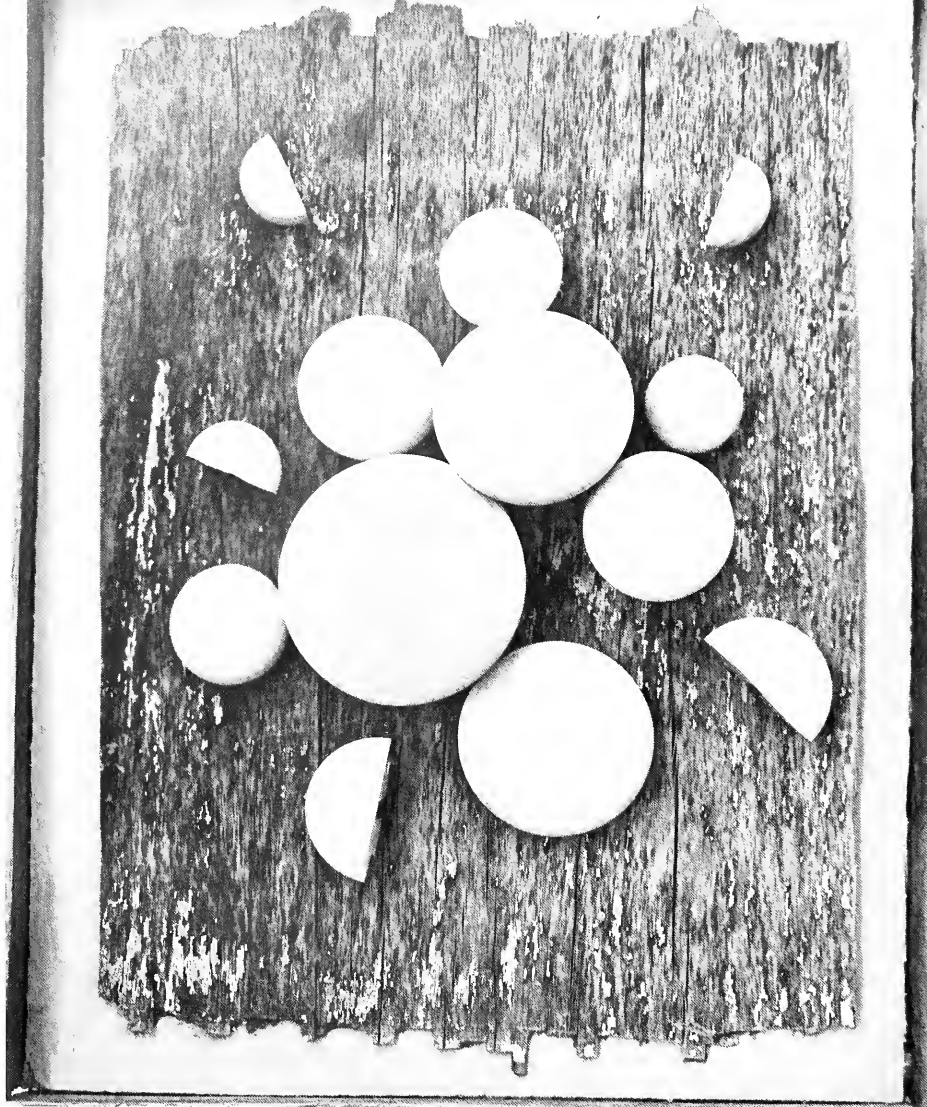

. . . the Lettermen were "in" with their usual modern sound . . . Brubeck came alive with his typical smooth swing . . . to share or understand another's philosophy to be caught up in Bach or Brubeck is somehow to become a bit more concerned a bit more alive.

The building of a stronger body . . . a release for excess energy . . . a team effort . . . a sturdy mind made alert by a well-developed, well-cared for body . . . The purpose of Physical Education . . . Studies in how we do or do not behave . . . how we do or do not react . . . an effort to better understand our society and ourselves.

Repeated tests and trials of human behavior can often predict psychological tendencies as demonstrated by Mr. Robinson.

Dr. Colwell observes the staunch guard position, flexible stance, the quick lunge and the alert parry for accuracy and effectiveness.

ROTC

Major Hewlett Rainer, PMS

Army ROTC is designed to supply the nation with qualified leaders of high morals and character. Through the ROTC program the qualities of leadership, patriotism, efficiency, loyalty, obedience, courage, duty and honor are developed. Graduates of the ROTC program have been prepared since the turn of the century to perform their responsibilities as citizens wherever the security of the United States is threatened by foes. Stetson ROTC men are serving with the Army from Viet Nam to Berlin with the same vigilance as their forefathers.

With English we are in the world of our native tongue . . . we live, communicate, and die . . . we strive in the common ventures of life and, to tell each other of our own experiences, we use the English language . . . it is a very familiar language yet always new . . . We study our culture and endeavor to understand through our English-American tongue.

Cha, cha, cha!

I'm not going to tell you again, stay in character!

SPEECH, DRAMA, AND ART

If life is anything it is experience . . . and through drama and art we relate this experience to others . . . we share our ambitions, our pleasures, and our challenges . . . art, drama, and the spoken word bring into focus and sharp contrast the experience of being alive. In the drama we see . . . with the spoken word we hear . . . with art we sense . . . and all of these come to result in the experience of being aware of the world around us.

Dr. Chauvin pauses to reflect on a specimen during an informal tour of the geological collection.

In science we learn of the world around us . . . its physical make-up . . . its inter-workings . . . its systems . . . theories . . . and applications. The faculty presents us with the world around us and gives us the tools to understand our environment . . . yet we learn more than just what is around us. We learn of worlds that are yet to be . . . we theorize . . . we speculate . . . we wonder . . . we believe.

MATHEMATICS

With mathematics we work with numbers . . . but more than numbers we use ideas . . . ideas which control, guide, and help . . . these are abstractions and from these abstractions we learn more and more of the world in which we live . . . mathematics is a technical realm but even more it is a human realm . . . a world in which we build and grow.

In the study of music we come to feel and know the places of our lives . . . where our technology cannot take us. We experience intangible things of joy . . . peace . . . emotion . . . and Romanticism. The faculty introduces us into these worlds and teaches us the things we need to know to enjoy and understand . . .

With languages we deal in words . . . sounds . . . ideas . . . and literature. This area of study is technical but even more it is new horizons . . . new cultures . . . and new people. The faculty introduces us to worlds ranging from the Classics of Greek and Latin to the European worlds of Spanish, French, German, and the Oriental world of Russian. In the study of languages we cause our world to be small.

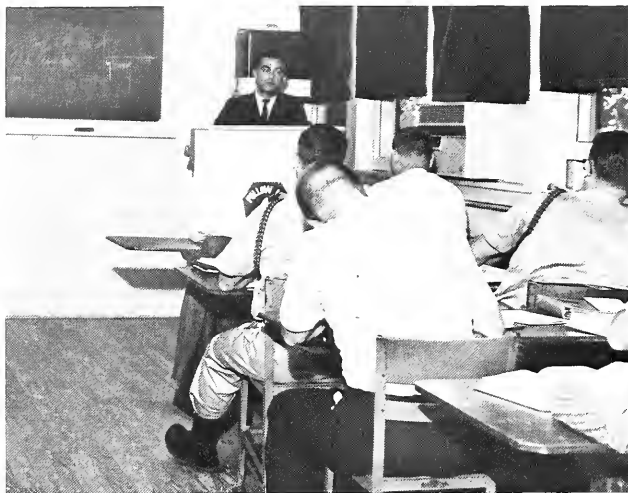

Complex grammatical drills are practiced with Professor Rollins.

Miss Gonzalez's facial expressions emphasize the phonetics of the language: a familiar session for beginning French students.

SCHOOL OF BUSINESS

Mr. Masters talks of the commercial world and its challenge.

The work is serious . . . students must learn to use machines and make them a part of the business major's life.

An inclusive term which summarizes the work and activity of an entire economy . . . a critically important part of the world where buying . . . selling . . . and production are the important words . . . this is business. The place where the Stetson School of Business trains people to meet the challenge of the commercial world and that of modern business. Soon in the future there will be a new building to aid in this challenge . . . and men will be better fitted for the competition.

The wires and inner workings of a computer are a complexity only a business major could know and love.

HISTORY, PHILOSOPHY AND RELIGION

"Did you hear about this one? 'Goldwater in '64; bread and water in '65; hot water in '66,'" muses Dr. Schultz during a study break.

Studies in the hows and whys of the foundations of our universe . . . past events which shed light on what we will attempt today . . . thoughts which lead to ultimate answers . . . the quest for the something greater than ourselves . . . yesterday: Alexander's plan of attack, tomorrow: a summit conference on nuclear weapons . . . yesterday: Callicles' theory of morality, tomorrow: confrontation with the existential predicament . . . yesterday: mysticism, tomorrow: realization . . . the reliance on charts, maps, theories, thoughts, texts . . . we attempt an understanding of that which we can learn through the events of yesterday that somehow we may be better prepared—intellectually, spiritually, morally—to comprehend the age of missiles, millions and miracles.

To be seen pounding a typewriter, balancing books or (rarely) trying to catch a nap at almost any hour of the day or night in the S.U.B. Office is senior DAVID LAVOY. Dave has been a regular contributor to the Stetson Reporter, has served as S.U.B. Treasurer, and has won membership in Green Circle and O.D.K., the highest scholastic-leadership honorary.

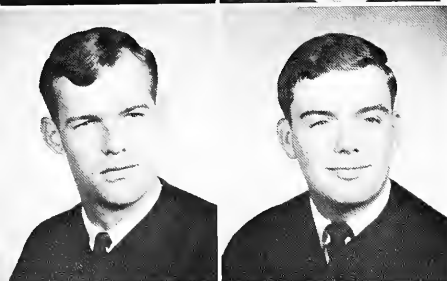

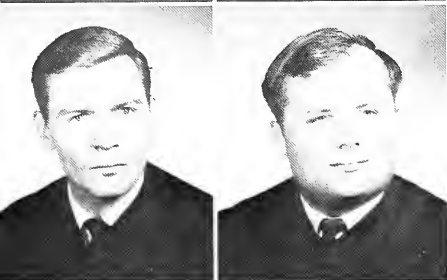

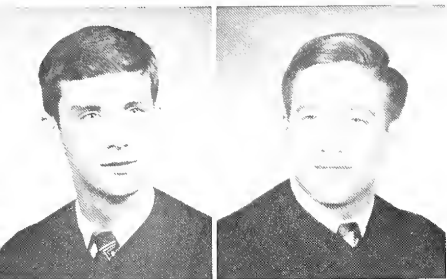

Furtherance of the ideals of campus panhellenic spirit has been the matrix of the efforts of SANDY SMITH, elected to Who's Who for 1965. Sandy's membership in Phi Mu social sorority and Phi Beta, the women's music honorary exemplify the diversity of activities to which she has applied her talents. Her efforts toward intersorority relations have done much to frame the foundation for a future of a stronger Greek system on the campus.

The year of 1965 has seen numerous innovations and improvements in the quality and attitude of the Stetson Reporter. This achievement has been due, chiefly, to the leadership and initiative of GARY OSTROM. Gary's participation on the Publications Board, and his presidency of Sigma Pi Kappa, journalism honorary, have been coupled with his activities in Student Government and his fraternity, Sigma Phi Epsilon to make him an outstanding member of his graduating class.

STETSON UNIVERSITY

COLLEGE OF LAW

FACULTY AND ADMINISTRATION

"The right to practice law is not a natural, inherent right, but one which may be exercised only upon proof of satisfactory legal attainments and character. Justice . . . can be maintained only if the conduct and motives of those who establish and administer it merit the approval of all just men . . ." These are the opening words of the Honor Code of the Stetson University College of Law, and state the general goals of that institution. Since 1900 the Law School and the faculty of the St. Petersburg campus have directed their efforts toward the education of young men who understand and share the goals of a college dedicated to these high principles. The adaptation of the British system of legal education, stressing personal contact with practicing lawyers, promotes the effectiveness and merit of the quest for legal excellence.

INTERFRATERNITY COUNCIL

The Interfraternity Council on Stetson's campus was created to promote a spirit of cooperation among the fraternities, and to establish a better rapport between the Greek men's organizations, and the people of DeLand. The council acts as the vehicle for the interchange of ideas among the fraternities and has served to strengthen the Greek system, making it a useful body to the campus community.

Composed of the presidents and one representative from each social fraternity, the council has been coordinated this year by Mr. Arthur "Red" Alderman, advisor to the I.F.C. The council, through the medium of a disciplinary committee composed of the fraternity presidents, ejudicates in cases of infractions of the rules governing the Greek system by member fraternities. Tom Riden, Delta Sig President, acted as secretary for the committee for the year.

Greek achievement was unparalleled this year as the Delta Sigs ran off with a fall bowling tournament championship, co-sponsored a benefit bash featuring the venerable Dr. Feelgood and his Interns, and avoided the stigma of probation all in one memorable year! Lambda Chi Alpha held the chairmanship for the Greek Week activities, pridefully owned that a brother quite admirably filled the position of President

of the S.U.B., while another clutched the S.G.A. money bags in his chubby digits.

Jeez-O-Pete! The Pikes made probation! The campus witnessed the revival of that silly funster the Pike fire truck after lo these many months of idleness. Business manager-ship of the Hatter was assumed by one of the brothers: you can't keep a good man down!

The Pi Kappas proved no ten o'clock scholars as they came out on top of the academic situation. Presidencies of the Student Government and Omicron Delta Kappa placed them in the executive league, while their winning consistently at basketball proves them adept in the green league as well.

The Sigma Nus entertained the rest of the campus with a house warming in January and then proceeded to burn up the athletic field, putting them in line for the President's Cup as the jocks most likely.

The Sig Eps could very possibly implant the proverbial banana in the Sigma Nus' ear as far as athletics this year, having taken the Greek Week Olympics and doing a fine job in all sports. This Sig Eps can also boast the president of I.F.C., Marion Moorman, who has done an outstanding job.

AND A GOOD TIME WAS HAD BY ALL!!!!

PANHELLENIC COUNCIL

We have been friends together, in sunshine and in shade.—Lady Maxwell

New program, new schedules, new approach, new goals . . . If the fall rushees thought they were confused they should have been in the shoes of the sorority women of the Stetson Panhellenic Council. After it was all over, everyone agreed that the new rush system was certainly a step in the right direction and the hours of planning spent by the delegates and presidents of each Greek sorority were lauded by all who participated in the program. Under the direction of Phi Mu Sandy Smith, the Stetson Panhellenic directed the activities of the Junior Panhellenic, sponsored the annual scholarship banquet and coordinated the campus events involving Greek organizations.

While the Greek men were on their toes, the Greek women were not to be outdone. The Alpha Xi Deltas had one of the most successful years yet in practically every area of endeavor. They again landed the scholarship trophy—for the pledges and actives no less!! They can also be proud of sisters who hold the titles of Greek Goddess, Military Ball Queen, Homecoming Hostess, Posture Queen, Basketball Queen, and Miss Stetson (Jeeze!!).

The Tri-Delts "done good"!! After endless hours at the books they were awarded the most improved scholarship trophy—finally! Their achievements spread into other areas as well as shown in their success in taking the Greek Week Olympics and Hatter Holiday; and Glamour Magazine found the best-dressed girl on campus in the ranks of Tri-Delta.

The Alpha Chis were right up on top of the executive world this year with several of the top positions in the respective dormitories as well as the Presidency of exec. in

The members of Junior Panhellenic are, *Left to Right, Front Row:* Nancy Kooistra, Laurie Mossein, Linda Lynn, Terri Bain, Kathy Warthen, JoAnn Smith, Betsy Goldstein, Misty Krumholtz, Susan Schlatter. *Back Row:* Pat Deuell, Sally Hawver.

their ranks. Their continued excellence in scholarship coupled with their success in having a sister crowned as Miss Hatter speaks well of an all-around good year.

Aside from their accidents with the Alpha Xi ceiling the Pi Phis sported the President of Mortar Board, a dormitory president, Miss Stetson, and three fraternity sweethearts in their midst this year.

Phi Mu can be proud of sister Mary Bues, the only Greek woman to be awarded a Woodrow Wilson Fellowship this year. Phi Mu also had a rollicking day at the Springs by taking second place in the Hatter Holiday events.

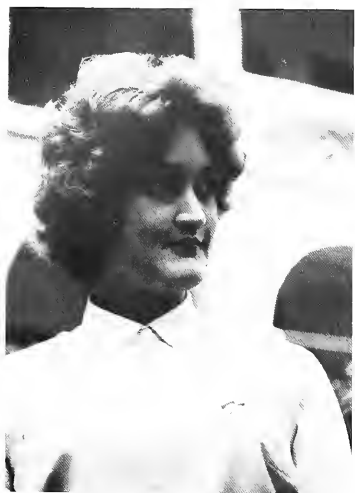

The Zetas were right in there at Homecoming and with the help of the Pi Kappas took the lawn decoration trophy. Zeta can also boast of Sig Ep sweetheart and the new Hatter Editor.

No mention of Stetson's Panhellenic Council is complete without the name of Dean Etter Turner. Dean Turner has been a guide and example for all Greek Women and her efforts in improving and expanding the work of Panhellenic have made her an exemplary Greek woman at Stetson and throughout the Greek organizations.

The representatives and presidents composing the membership of the Panhellenic Council are, *Left to Right, Front Row:* Toni Carameros, Linda Priddy, Caryl Giffin, Phyllis McDaniel, Brenda Ward, Sarah Ashcraft, Tana Brown, Suzanne Fletcher. *Back Row:* Patty Paulk, Nancy Wands, Margaret Jones, Brenda Bramlett, Gwen Knight, Sandy Liddy, Jeanne Mazur, President Sandy Smith, Kathy Warthen, Donna Dericks.

STUDENT GOVERNMENT ASSOCIATION

Everything is simpler than you think and more complex than you can imagine. Goethe

Left to Right: Ted Brousseau, Charlotte Kutz, Steve Busey, Claire Telmanik, Tony Tussing, Mr. Ralph Hughes, Lane Burnett, Dr. Edward Holmes, Fred de Armas, Dwight Geiger.

Left to Right: Sandra Lucas, Robert Johnson, Bonnie Moffat, Nancy Prichard, Lynn Gardner, Tom Henry.

The Student Government is organized for the purpose of promoting responsible, purposeful, and effective student leadership, performing services for the student body, expressing student opinions and linking communication between the administration and the students. The Student Government has worked hard this year to further these aims. Many innovations have come about in 1965. The structure and effectiveness of Student Government has been improved by the addition of statutes to the constitution. These statutes contain election and senate procedures, traffic regulations, provisions for the establishment of a student cabinet, and a curriculum evaluation council. Student Government has recently presented to the student body a projection of a newly proposed Honor System.

Such traditional projects as Spring and Fall Concerts, Green Feather, Homecoming, Hatter Holiday, and Parents Week-end also met with unusual success.

Left to Right: Bill Schroff, Dr. William Taylor, Sandy Hardy, Richard Ginn, Fred de Armas, Dick Shuford, Steve Wilkerson.

Anonymous

Recognizing the need for a center of social, cultural, and recreational activities, the Student Union Board endeavors to present these to the campus community through its facilities. Lenard Gillen*

The Men's Dorm Council is made up of one member from each dormitory. These representatives serve as a disciplinary court for dormitory problems and conduct social affairs, such as open houses, parties, and an annual Christmas party for visitors and the residents of the dorms. Members are elected each semester by the residents of each respective men's dormitory.

WOMEN'S EXECUTIVE COUNCIL

*Not to make the laws but to interpret
them.
Harvard Review*

The Women's Executive Council, made up of elected representatives from the student body, has as its high goal the fair and unbiased interpretation of the rules governing the women students of the university. Their work with the new Senior Key privilege has given the women on the campus a greater sense of responsibility as well as increased pride in their system of self-government.

RESIDENT ADVISORS

Only accept that counsel which comes from another's own experiences.

Rousseau

Those university men selected to serve as Resident Advisors are chosen by the two head residents and the Dean of Men. They are to act as supervisors of dormitory life and are responsible for their respective areas in each dorm.

If a boy should need advice regarding his academic schedule, a personal problem or any other matter which he would care to discuss with someone other than a faculty member, his resident advisor is the man who is there to see that he receives the assistance needed.

THE STETSON REVIEW

*The poet's pen . . . gives to airy nothing a
local habitation and a name.*

Shakespeare

More than a literary magazine, greater than a volume of student art, graphics, photography, prose, poetry, or drama, the Stetson Review attempts to relate the cultural expressions of a college generation. The introduction of foreign language poetry, a fresh format and an expanded photography section, along with the intent of making "every page a picture" has insured that the 1965 Review has become the confluence of Stetson's creative awareness.

Activities of Canterbury House include a weekly Sunday evening supper followed by a program which is paralleled with campus life, and Even-song. During the year Canterbury holds many dances, parties, and banquets for various occasions.

PERSHING RIFLES

Duty . . . Honor . . . Country.
Gen. Douglas MacArthur

Pershing Rifles is the national military honorary for ROTC cadets. These basic cadets work to promote interest and proficiency in the ROTC program. The precision drill team performs at the Annual Green Feather Carnival as well as local parades and area drill meets.

SCABBARD AND BLADE

Our Federal Union: it must be preserved.
Andrew Jackson

Leadership, discipline, rigorous training, and learning military skills are the main emphasis of the ROTC program. Here we learn the meaning of General MacArthur's words Duty . . . Honor . . . Country. We examine and apply these words and they become real and become a part of us.

From the top, left to right: Jim Parker, Charles Sipos, Bruce Bradford, Jim Whiting, Chuck Perino, Kernie Kostrub, Art Floyd, Bill Millward, Jim Richter, Bob Alford, Joanne Chesire, Sponsor, Capt. MILITARY

*To fight the good fight for what is the
truth and right. New Testament*

Army ROTC is designed to supply the nation with qualified leaders of high morals and character. Through the ROTC program the qualities of leadership, patriotism, efficiency, loyalty, obedience, courage, duty and honor are developed. Graduates of the ROTC program have been prepared since the turn of the century to perform their responsibilities as citizens wherever the security of the United States is threatened by foes. Stetson ROTC men are serving with the Army from Viet Nam to Berlin with the same vigilance as their forefathers.

"... it must be kept in order at all times."

"Walking on your elbows isn't easy."

"If I drop this thing on my foot one more time . . ."

"Now this is the way it's done . . . see!!"

TOMORROW'S JOBS

Yesterday there were no jobs
in the electric industry
for grade school
drop-outs.

Today there are no
jobs for high school
drop-outs.

Tomorrow's jobs . . .
the job YOU want
. . . will require
advanced training . . .
or even a college degree.

Get all the education
and training you can.

The payoff is a better life for
you and a better nation, too!

CONGRATULATIONS SENIORS!

Your Alumni Association welcomes you. Now that your undergraduate days have passed, we hope you will continue your interest in your Alma Mater.

There are many Stetson Alumni Clubs in all sections of the nation. If for some reason you find no Stetson organization in your area, let us know; we will be glad to help you start one.

The purpose of the Stetson Alumni Club is to keep the Alumni of a geographical area informed of the state of Stetson and to afford the alumnus the opportunity of meeting with other Stetson alumni on a purely social basis.

Please remember to keep in touch with your alumni office. We need to know when you move, marry and have children. We want to know what work you are doing and what success you are enjoying.

Like any mother, your Alma Mater is proud of her children. You have passed the test and made the grade. Now you are on your own but her interest in you and yours continues. Remember we are here to serve you and hope that you will call on us often.

Yours truly,

Wm Richard Thirlwell

the reason and hope of an expanding
 university are to be found in that intangible,
 undefinable, ever-present quality known as you.
 we became quite bold with the 1965 hatter:
 we assumed to capture a bit of you
 in these 303 succeeding pages—
 your moods and actions,
 your joys and sorrows,
 your efforts and frustrations,
 your hearts and your ideas.
 you were by no means an easy undertaking.
 you demanded nine months of
 "all nighters",
 tired eyes,
 cut classes,
 hat rack cokes,
 disappearing quality points,
 shot nerves,
 and no-one-knows-how-many-hours.
 but you were patient—you endured
 our tardiness for appointments,
 our endless stream of form letters,
 our spying photographers and
 our scowling countenances.
 during this nine month (or was it nine year?) period
 many hands,
 many heads,
 many hearts
 have given their best efforts to see that
 indescribable bit of you become a reality.
 dr. ethel colbrunn, our advisor has been of
 invaluable assistance—anywhere, anytime!
 dean turner, as usual, has always offered a
 shoulder to cry on when the going really got rough.
 mr. everette cushman of the law school has been a
 most tolerant and efficient liaison between the
 st. pete campus and our office.
 in our moments of mass hysteria
 there came the brave few who somehow threw in
 a bit of sanity:
 dave glenn, friend even when asked to drive
 270 miles for one picture.
 steve stern, dave macfarland, brian svkhart
 added a much-needed and greatly appreciated
 note of intellectuality.
 fred, sarah, brady, marcia, joyce, clinton, pete
 and the tri-delts and their peculiar ability just
 to put up with me have made this wee endeavor worth
 while. jack shapiro, of ibis infamy, as another editor,
 knows what words cannot express.
 harrell brooks of foote & davis "came on like
 gangbusters" and if this book, by some
 quirk of fate, should be a success
 the thanks go to him.
 in the end i suppose only the
 editor knows what she really meant.
 i've searched
 your faces,
 your moods,
 your actions
 through the pictures you see on the succeeding pages.
 i've listened to
 your thoughts,
 your dated terminology,
 your college generation dialogue.
 in all of these i have seen the vision mentioned
 earlier in the book.
 if you get the message and smile we will be
 satisfied.
